DrupalEasy
Drupal Career Online

Drupal Career Online is DrupalEasy's premier career technical education program designed to provide students with a strong foundational knowledge of the Drupal content management system as well as provide hands-on experience with tools and workflows that professional Drupalists use.

The course teaches students about the basic building blocks of a Drupal site, how to extend Drupal with contributed and custom modules, how to theme Drupal, common development workflows, and how to interact with the community for sharing, support, and networking.

The DCO includes online instruction; rich learning resources; community engagement; and required independent practical activity to encompass the required skills to be successful as an employee, independent contractor, consultant or small business focused on Drupal web development projects.

Resources
